the OTTERBEIN SEMESTER

A short-term study abroad
program in the United States

About Otterbein University

Otterbein was founded in 1847 and was among the first universities in the United States to be founded as coeducational and to admit women to the same programs of study as male students. Otterbein was also one of the first three universities in the United States to be open to students of color.

The Best of Both Worlds

Otterbein University is a comprehensive, private institution and offers both bachelors and masters degrees. Otterbein has a history of community service and engagement and is located in the city of Westerville, a suburb of the state capital of Columbus. In Westerville, it is possible for students to experience the warmth of a small American town located just minutes from the arts and commerce of the 17th largest city in the United States. Storefronts in “Uptown” Westerville are mainly the original architecture and home to many locally owned stores and boutiques. Westerville was ranked 15th in the Top 100 list of “America’s Best Places to Live” by *Money Magazine*.

The Otterbein Semester offers current undergraduate students the opportunity to experience the rich cultures of central Ohio and the expertise of the Otterbein faculty. The Otterbein Semester encourages well-roundedness through experience, and each program that is offered gives a new perspective for students studying in various academic disciplines.
